

Zurich offers a unique combination of lifestyle, business, a shopper's paradise, a vast gastronomic variety, and beautiful natural surroundings. It is renowned both for its refined culture and leading research projects. So it is no surprise that the Mercer survey awarded the city the distinction of having the highest quality of living in the world for six consecutive years. In short, it is always worth making a trip to Zurich. Thanks to the international airport, Zurich is connected via direct flights to over 150 cities around the world. The airport is but a ten-minute's trip by train to the city center.

Organizers

Swiss Society for Contamination Control (SRRT)
International Confederation of Contamination Control Societies (ICCCS)

ICCCS Member Societies

- Association of Engineers for Micro-contamination Control (ASENMCO), Russia
- Association pour la Prevention et l'Etude de la Contamination (ASPEC), France
- Associazione per lo Studio ed il Controllo della Contaminazione (ASCCA), Italy
- Chinese Contamination Control Society (CCCS), China
- Cleanrooms and Contamination Control Association for Denmark, Finland, Norway and Sweden (R3 Nordic), Nordic Countries
- Institute of Environmental Sciences and Technology (IEST), USA
- Irish Cleanroom Society (ICS), Ireland
- Japan Air Cleaning Association (JACA), Japan
- Korea Air Cleaning Association (KACA), Korea
- Romanian Association for Prevention, Study and Contamination Control (RACC), Romania
- Schweizerische Gesellschaft für Reinraumtechnik (SRRT), Switzerland
- Scottish Society for Contamination Control (S2C2), Scotland
- Sociedade Brasileira de Controle de Contaminação (SBCC), Brazil
- VDI Commission for Cleanroom Technology (VDICCT), Germany
- Vereniging Contamination Control Nederland (VCCN), The Netherlands
- Österreichische Reinraumgesellschaft (ORRG), Austria

Invitation to ICCCS 2012⁺

It is a great honor for the Swiss Society of Contamination Control SRRT to host the 21st International Symposium on Contamination Control ICCCS 2012 at the ETH, the reputable Swiss Federal Institute of Technology in Zurich, Switzerland.

Zurich has been the city where the International Confederation of Contamination Control Societies, ICCCS, was founded in 1972 and the first international meeting was being held. In 1990 Switzerland hosted

the 10th International Symposium and 22 years later, in 2012, we are proud to invite again to meet for a productive exchange of vast experience, know-how, and to enjoy friendship throughout all the participating countries.

Today's up-to-date cleanroom technology, control of particulate and molecular contamination, as well as new fascinating applications, such as nanotechnology or micro-electro-mechanical systems (MEMS), are challenges of the future. Innovative approaches, applications, and ideas, as well as technology to reduce the risk of accidents will be discussed at the symposium.

We invite you to get together at the 21st ICCCS Symposium in the wonderful City of Zurich. An attractive partner program, visits to interesting companies, exhibitions, and a banquet will accompany the visionary technical program.

On behalf of the SRRT we welcome you to Zurich and are looking forward to seeing you.

Sincerely,

Hans Zingre
President SRRT

Professor Jérôme Faist
ETH, Swiss Federal Institute of Technology
Quantum Optoelectronics Group

Tentative Schedule

	Monday Sep. 3	Tuesday Sep. 4	Wednesday Sep. 5	Thursday Sep. 6	Friday Sep. 7
AM		Opening Session Plenary Sessions Lunch Break	Plenary Session Technical Session (parallel) Lunch Break	Plenary Session Technical Session (parallel) Lunch Break	Technical Tours
PM	Registration	Technical Session (parallel)	Technical Session (parallel)	Closing Session	
Evening	Welcome Party		Banquet		
Exhibition	Setting up	AM-Setting up PM-Exhibition	Exhibition	AM-Exhibition PM-Clean-up	

Main Topics:

1. Research and Development
2. Metrology and Simulation
3. Standardization
4. Engineering, Energy, Systems and Equipment
5. Pharma and Medical Devices
6. Health Care and Hygiene
7. Food and Beverage
8. Microelectronics and MEMS
9. Micromechanics and Optics
10. Separative Devices
11. Nanotechnology
12. Cleaning and Services
13. Safety and Environment
14. Robotics

Technical Tours:

Technical tours will be scheduled

Individual Group Meetings:

According to group programs
ISO TC-209 Meeting
ISO TC-142 Meeting
ICCCS-CoD Meeting
ICEB Meeting

Exhibition:

For all who wish to exhibit their products and ideas, check the website for further details.

Note: Tentative schedule of ICCCS 2012 as listed may change any time without notice. Please visit the web for further information.

Important Dates:

Aug.	2011	Call for papers
Jan.	2012	Abstract submission deadline
March	2012	Announcement of acceptance
March	2012	Early registration start
April	2012	Full paper submission deadline
June 30	2012	Early registration deadline
Aug. 17	2012	Regular registration deadline
